Enjoy Comfort and Convenience
for Controlling Your Home
Comfort System

Innovation and the Environment

Over 100 years ago, a humble but determined engineer solved one of mankind's most elusive challenges by controlling the indoor environment. A

leading engineer of his day, Dr. Willis Carrier would file more than 80 patents over the course of his career. His genius would

enable incredible advancements in health care, manufacturing processes, food preservation, art and historical conservation, indoor comfort and much more.

Carrier's foresight changed the world forever and paved the way for over a century of once-impossible innovations. Yet in addition to being an accomplished inventor, he was also an avid outdoorsman. Carrier recognized the power and beauty of the natural environment. This appreciation of our world and its resources continues to guide Carrier Corporation today. We will never rest on our accomplishments, but instead consistently look for ways to improve our products, our environment and our world.

Carrier® Comfort™ series thermostats help you improve your indoor comfort with both programmable and non-programmable options. They are the perfect complement to your complete Carrier indoor comfort system.

Leaders in Technology

Programmable

Touch·N·Go®

Non-Programmable

Ease of Use

Carrier Comfort series technology makes setting your thermostat for maximum home comfort as easy as pressing a few buttons. The illuminated display features large, easy-to-read settings, with simple graphics that guide you quickly through any process. The non-programmable model lets you press just one button to set and hold your home's temperature indefinitely – it couldn't be easier!

Standard Models

1 One-Touch Convenience

Carrier® Touch 'N' Go® buttons make it easier than ever to select separate, pre-set temperatures for when you are home, away for the day, or sleeping.

2 Comfort to Match Your Lifestyle

This programmable thermostat gives you the ability to set one comfort schedule for your typical five-day work week, and a separate schedule for your two-day weekend. It's called 5/2 programming and it is designed to match your lifestyle for the best combination of comfort and economical energy use.

3 Automatic Heating or Cooling Selection

Auto changeover means this non-programmable thermostat does the thinking for you, switching seamlessly between heating and cooling operation as needed.

Base Models

1 Comfort to Match Your Lifestyle

Even our most basic programmable thermostat gives you the ability to match your lifestyle with 5/2 programming. Set one comfort schedule for your typical five-day work week, and a separate schedule for your two-day weekend for the best combination of comfort and economical energy use.

Non-Programmable

It's About Your Comfort

Touch·N·Go® Our standard programmable Comfort™ series thermostat includes three Touch 'N' Go buttons – home, away and sleep to provide easy, one-touch convenience to easily select pre-determined temperature settings based on three different lifestyle situations.

Typically set to deliver maximum heating or cooling comfort when you are at home with the simple touch of a single button.

Say goodbye to unnecessary heating and cooling costs when you are not there to enjoy the comfort. Press the away button to select money-saving temperature settings.

One touch of the sleep button lets you rest easy with the right mix of comfort and energy savings – not too hot, not too cold, but just right.

Limited Warranty

To the original owner, the Carrier Comfort series thermostats are covered by a 10-year parts limited warranty upon timely registration. The limited warranty period is five years if not registered within 90 days of installation. Jurisdictions where warranty benefits cannot be conditioned on registration will receive the registered limited warranty periods. See warranty certificate at carrier.com for complete details and restrictions. Be sure to ask your Carrier dealer about optional labor warranties.

Carrier® Systems for Unmatched Performance in Every Season

Willis Carrier's meticulous attention to quality and detail led to a major culture shift in the way we live indoors. More than a century later, Carrier Corporation operates with a unique willingness to develop new technology, the confidence to revise proven designs and the ability to deliver results with every new installation.

Part of that equation is our nationwide network of experts you can turn to for all of your indoor comfort needs. Your local Carrier dealer is well equipped to evaluate your home – everything from size, window placement, ductwork, venting and other structural specifics – and create a customized system designed around your lifestyle. So when it's time to make a choice for your family's comfort, make the best decision you'll ever make – Carrier – and let the experts do the rest.

The Total Indoor Comfort System

Air Conditioner provides reliable, high-efficiency cooling for long-lasting comfort and energy savings.

Gas Furnace provides reliable, high-efficiency heating for long-lasting comfort and energy savings.

Evaporator Coil is matched with the proper outdoor unit to provide top heating and cooling efficiency and years of reliable service.

Air Cleaner improves air quality by removing harmful and irritating airborne pollutants in your home.

Ventilator combines fresh outdoor air with conditioned indoor air for improved air quality and maximum efficiency – great for today's tightly constructed home.

Humidifier replenishes moisture to dry air.

Zoning sets different temperatures for up to eight different areas of your home for truly customized comfort and enhanced utility savings.

UV Lamp inhibits the growth of contaminants on the indoor coil, leaving your home with cleaner, fresher indoor air.

Programmable Thermostat allows precise temperature control along with programmable features to further customize your comfort.
